OBJECTIVE

Final-year Computer Science undergraduate with knowledge of full-stack development, OOP, and Data Structures & Algorithms. Interested in building practical applications and solving real-world problems. Seeking an internship or entry-level role to learn, contribute to projects, and grow as a software developer.

EDUCATION

Bachelor of Science in Computer Science — CGPA: 8.0 (till 5th Sem)
Sri GVG Visalakshi College for Women — **June 2023 - Present**

HSC (Class XII) — Percentage: 86.6
Sri Visalakshi Girls Higher Secondary School — **June 2022 – April 2023**

SKILLS

- **Programming Languages:** Python, Java, JavaScript, TypeScript, SQL
- **Web Development:** React.js, HTML, CSS, Tailwind CSS
- **Backend Technologies:** FastAPI, Node.js, Express.js, REST APIs, MongoDB, Firebase, Supabase
- **Deployment & Hosting:** Vercel, Render
- **Core Concepts:** Data Structures & Algorithms, OOPS, Operating Systems, Software Engineering
- **Tools:** VS Code, Antigravity, Git and GitHub, Figma
- **Other:** Poster Designing, Basic Video Editing, Social Media Management

PROJECTS

UI-CodeGen - AI-Powered UI-to-Code Generator (*Github repo*) — **December 2025 - March 2026**

Tech Stack: *React.js, FastAPI (Python), MongoDB, Firebase, Tailwind CSS, Vercel, Render*

- **Built a full-stack web app** that converts UI screenshots into working frontend code (React, Vue, Svelte, HTML) using **Google Gemini AI**.
- Integrated a VS Code-style Monaco Editor with live preview, **AI chat assistant, and Version control** to support an end-to-end coding workflow in the browser.
- Implemented **Firebase Authentication** with email verification, password reset, and role-based access control for an **admin panel** with user and project management.
- Designed a **FastAPI backend** with **MongoDB** for project persistence, **Cloudinary** for image storage, and **Pillow** for image preprocessing before AI inference.

Evalyze - Placement Readiness Assessment System (*Github repo*) — **November 2025 - July 2025**

Tech Stack: *Next.js, React, Tailwind CSS, TypeScript, Supabase, Vercel*

- Built a web platform to evaluate students' **placement readiness** through structured **skill**, **personality**, and **resume assessments** with **AI-powered analysis using Groq AI**.
- Implemented **Supabase authentication**, user/admin dashboards, resume upload with **AI evaluation**, and integrated modules for **skill assessment**, **personality assessment**, **results**, and **history tracking**.
- Enabled **secure data storage**, **consolidated report generation**, and **progress tracking** through a centralized **dashboard** for students and administrators.

ACHIEVEMENTS

- **Best Performance Award** – Academic Year 2024 - 2025 and 2025 - 2026.
- **First Prize** in Presentation Competition - Fanticuz (Intra-College Event), **for 3 consecutive years (2023 - 2026**).
- **Finalist** – TNWISE 2025, Tamilnadu **State-Level Hackathon**, Kumaraguru College of Technology.
- **Selected for Round 2** – **Thiran National-Level Hackathon** 2025, Sri Eshwar College of Engineering.
- **HackerRank |** Gold Badge in Java. Profile Link
- **Coding Ninjas** | Solved 200+ DSA Problems. Profile Link
- **CodeChef |** Bronze Badge | Solved 77 Problems. Profile Link

EXTRA CURRICULAR

- **Head of Technical Committee – Coimbatore District, National Youth Club (YUCI)**
  Managed the technical side of district-level events, improving my leadership, team management, and problem-solving skills.

CERTIFICATIONS

- SaWiT Challenge Certificate - *GUVI*
- Python for Data Science - IBM
- MongoDB Basics - MongoDB
