OBJECTIVE

Final-year CS undergraduate with expertise in full-stack development. Proven track record of building production-ready applications with AI integration and real-time features. Seeking a full-stack developer role to contribute to scalable systems and grow as a software engineer.

EDUCATION

B.Sc. Computer Science - Sri GVG Visalakshi College for Women

CGPA: 8.2 | **June 2023 - Present**

HSC (Class XII) - Sri Visalakshi Girls Higher Secondary School

Percentage: 86.6 | **June 2022 – April 2023**

TECHNICAL SKILLS

Languages	:	Python, Java, JavaScript, TypeScript, SQL
Frontend	:	React.js, HTML5, CSS3, Tailwind CSS, Next.js
Backend & Databases	:	Springboot, FastAPI, Node.js, REST APIs, MongoDB, Firebase, Supabase
DevOps & Tools	:	Docker, Maven, Git, GitHub, GitHub Actions, CI/CD, JUnit, Postman, Render, Vercel
Core Concepts	:	Data Structures & Algorithms, Object Oriented Programming, Software Engineering

PROJECTS

UI-CodeGen - AI-Powered UI-to-Code Generator | [Github repo](#)

December 2025 - March 2026

Tech Stack: *React.js, FastAPI (Python), MongoDB, Firebase, Tailwind CSS, Vercel, Render*

- Built a full-stack web app that converts UI screenshots into working frontend code (React, Vue, Svelte, HTML) using Google Gemini AI.
- Engineered VS Code-style Monaco Editor with responsive live preview, AI chat assistant with conversation history, version control, and admin panel with role-based access control for user and project management.
- Designed **FastAPI** backend with **MongoDB** persistence, **REST API** to Gemini, Cloudinary CDN, **OpenCV** preprocessing, **Firebase** authentication, and deployed on Vercel + Render for production reliability.

Evalyze - Placement Readiness Assessment System | [Github repo](#)

July 2025 - November 2025

Tech Stack: *Next.js, React, Tailwind CSS, TypeScript, Supabase, Vercel*

- Built a full stack web platform to evaluate students' placement readiness through structured skill, personality, and resume assessments with **AI-powered analysis using Groq AI**.
- Implemented **Supabase authentication**, user/admin dashboards, resume upload with **AI evaluation**, and integrated modules for skill assessment, personality assessment, results, and history tracking.
- Enabled **secure data storage**, **consolidated report generation** through a centralized dashboard for students and administrators.

Code-Mentor - VS Code Extension | [Github repo](#)

March 2026 – April 2026

Tech Stack: *TypeScript, VS Code Extension API, Ollama, Llama 3.2, Node.js*

- Developed VS Code extension analyzing source code quality and providing **AI-driven recommendations** to improve code readability and development practices.
- Integrated locally hosted **Llama 3.2 models via Ollama** for real-time code evaluation and contextual feedback generation within the editor.
- Built Interview Monitoring Mode detecting suspicious activities (rapid copy-paste, AI-assisted patterns) to support technical assessment integrity.

ACHIEVEMENTS

- Best Performance Award** – Academic Year 2024 - 2025 and 2025 - 2026.
- Winner** in Presentation Competition - Fanticuz (Intra-College Event), for 3 consecutive years (2023 - 2026).
- Finalist – TNWISE 2025, Tamilnadu **State-Level Hackathon**, Kumaraguru College of Technology.
- Selected for Round 2 – **Thiran National-Level Hackathon 2025**, Sri Eshwar College of Engineering.
- HackerRank** | Gold Badge in Java. [Profile Link](#)
- Coding Ninjas** | Solved 200+ DSA Problems. [Profile Link](#)
- CodeChef** | Bronze Badge | Solved 77 Problems. [Profile Link](#)

CERTIFICATES & LEADERSHIP

- SaWiT Challenge Certificate - [GUVI](#) • Python for Data Science - [IBM](#) • MongoDB Basics - [MongoDB](#)
- Full Stack Development Course Completion – NoviTech R&D Pvt Ltd
- Head of Technical Committee** – **Coimbatore District, Youth United Council of India** | Dec 2023 – Apr 2026
Managed the technical side of district-level events, improving my leadership, team management, and problem-solving skills.
